EDUCATION HISTORY

BEng (Hons) Software Engineering
Institution: University of Staffordshire - 2025

WORK EXPERIENCE

Full Stack Developer - YASI DIGITAL
August 2024 to April 2025 (9 months)

I managed multiple projects concurrently, encompassing both full-stack web development and mobile applications. I oversaw individual projects valued at over 200,000 LKR for esteemed Australian clients. My primary focus was on Laravel, where I facilitated comprehensive full-stack development, from site hosting to user management. I conducted stress testing, successfully accommodating over 100 concurrent users. Additionally, I performed daily and monthly checks, providing clients with detailed statistics and insights.
